## SIMPLER LOGISTICS

G2 integrated Solutions has installed Aerotrack telematics from manufacturer Aeromark to help manage its team of mobile service engineers. Management of G2's Cashless Payment, Access Control and ID card production systems require managers to monitor the location of G2's 60 service vehicles and to allocate work to the most appropriate engineer in the field. With 650 customers on over 1750 sites throughout the UK, this had been a major logistical task.
